

Literature Review Request Form

Fields marked with an * are required

FAU-Boca Raton (FAU-BR) faculty members can request a literature review for a research project.

Please note the following when requesting a literature review:

All requests for a literature review should receive confirmation of receipt within 2 business days.

The head of Reference & Instructional Services (RIS) will literature review the request; determine the scope of the literature review and its time frame; and select a library faculty member with relevant subject expertise. The head of RIS and the library faculty member will decide whether the Library faculty member is able to undertake the literature review, and whether the Library has access to information sources relevant to the project.

The Librarian who conducts the review automatically is designated co-author on the project.

The head of the RIS Department must approve a literature review request; no exceptions.

Once the request is approved, the Library faculty member will contact the FAU-BR faculty member to clarify project details.

Alternatively, FAU-BR faculty can request a one-on-one consultation with a Library faculty at the Research Consultation Page for instruction on finding suitable literature.

See the Wimberly Library's Literature Review Policy for additional details.

* Required

1. **Name ***

2. **Email ***

3. **Phone ***

4. **University Department ***

5. **Research Topic ***

6. Anticipated Start and End Date *

7. Additional Details
